

Statement Regarding Attorney General Inquiry

Before we proceed, I want to inform membership about a recent formal inquiry that we have received from the Office of the Attorney General of the State of Tennessee. This inquiry is very broad, and the specific scope and nature of the inquiry have not been disclosed to the Fairfield Glade Community Club. We have hired an attorney to represent the Club in this matter. Because the details are currently unknown, and on the advice of legal counsel, we cannot answer questions or engage in discussions regarding the matter to ensure that we do not inadvertently compromise any legal process. To maintain the integrity of this Board, we will refrain from commenting on, or answering questions about, any topics that may impact or overlap with the probe of the Attorney General until more information is available.
